Essentials for your business

HBX
natural living

A foundation of timeless design

Strong foundations are crucial to any successful business, and HBX offers a beautiful selection of essential, natural basics. Much like a **trusted classic in fashion**, these timeless pieces form the backbone of a well-rounded collection. Don't miss the opportunity to incorporate these **must-haves** into your collection.

Our Basics range includes **versatile wreaths, branches, and accessories** designed to meet the demand for timeless, year-round offerings. These items are ideal for creating warm, inviting spaces regardless of the season. Dive into our catalog to discover the possibilities.

For a more comprehensive understanding of our Basics collection, we encourage you to **visit our showroom**. Seeing our products firsthand will help you identify the perfect pieces for your customers.

Timeless

About HBX natural living

At HBX natural living, we specialize in blending natural materials with the latest interior design trends to inspire and support our business partners. Our team is dedicated to sourcing and creating thoughtfully selected, good quality decoration items at competitive prices. Our product line evolves to stay aligned with market trends, ensuring relevance for your clientele.

Our purpose:

Supporting your business success

At HBX, we understand the importance of providing more than just products. Our mission is to equip businesses like yours with natural home decoration items that help your customers decorate comfortable, stylish homes. By partnering with us, you gain access to a range of designs that not only look great but also encourage memorable experiences for the end user.

Key insights

about HBX and our offerings

- **Market Success:** Wreaths are one of our most successful product categories, with over 2 million units sold in just five years—a testament to their broad appeal.
- **Cultural Significance:** Historically, wreaths symbolized prosperity and good fortune, offering added storytelling opportunities for your marketing strategies.
- **Natural Inspiration:** Pinecones, a staple in many designs, are also functional in nature, acting as humidity sensors. Their story adds an educational and unique element to your product presentations.
- **Seasonal Relevance:** Many of our basics can be used in every season and/or specifically for spring, summer or winter, providing a year round turnover
- **Partnership Opportunities:** we developed a clear and structured HBX Shop-in-Shop concept to simplify and enhance your retail operations. Reach out to discuss how this innovative approach can benefit your business.

To further engage with our products and company updates, connect with us on LinkedIn, Facebook or on Instagram. Weekly content ensures you stay ahead in design inspiration.

HBX differentiation

HBX's collection stand apart through their unique mix of natural elegance and robust craftsmanship. While many vendors offer vases and planters, HBX adds value by providing beautiful, commercial collections that blend natural aesthetics with bold, eye-catching designs.

By partnering with HBX natural living, your business gains access to carefully crafted products designed to inspire and resonate with customers. Let's work together to enhance your product portfolio and create extraordinary experiences for your clients.

Seasonal products

Most of our Basic collection we will have on stock year round. But some are specifically designed by nature to be sold in either the Spring season, like easter eggs, or the Summer, like shells, or the Winter season, like branches and dried fruit. Items which are for a specific Season, or when nature does not let us harvest the best quality, are marked with a logo to indicate that they are only available part of the year.

Items with this logo will only be in stock in the **Autumn Winter** season due to nature's availability and/or necessity
